

Cell Splitting...Twin Splitting...

August 05, 2004

Conjoined Filipino Twins are Finally Separated in 17 Hour Operation at The Children's Hospital at Montefiore

- "The Ellman did the meticulous dissection, love that machine!"
- "The Ellman was used throughout the case - it became quite important when we realized we were dealing with fused brain that need to be separated - it worked great in teasing out the two lobes"

J. T. Goodrich, M.D.
